

LOL-ACC-1224

Model No LOL-ACC-1224

Application Accent

Name Adaptable Brass Accent

Description

The LOL-ACC-1224 is a super adaptable light which provides solutions for up lighting, grazing, backlighting, and spread light requirements without needing to select different types of lights. This is achieved by choosing the correct lamp for the location. Light on Landscape can help with this selection. The brass or copper body is durable and stylish. The adjustable knuckle gives accuracy when positioning the light.

General Notes

Please contact Light on Landscape to confirm the availability and current specifications of this luminaire.

Installation

Light on Landscape strongly recommend that all luminaires be correctly installed and maintained. Failure to do so will result in the voiding of the manufacturer's warranty and the reduced efficiency, performance and life of the fixture. To eliminate voltage drop, we advise that the recommended UV stabilized cable and run lengths are used, along with soldered joins, heat shrink connectors and quality lamps.
