#### General Notes

Please contact Light on Landscape to confirm the availability and current specifications of this luminaire.

#### Installation

Light on Landscape strongly recommend that all luminaires be correctly installed and maintained. Failure to do so will result in the voiding of the manufacturer's warranty and the reduced efficiency, performance and life of the fixture. To eliminate voltage drop, we advise that the recommended UV stabilized cable and run lengths are used, along with soldered joins, heat shrink connectors and quality lamps.
