

### LOL-ING-0138

<b>Model No</b>	LOL-ING-0138
<b>Application</b>	Inground
<b>Name</b>	Adjustable Inground Light

#### Description

This ruggedly designed low voltage in-ground fixture is constructed with a composite body for strength and reliability. A choice of composite or solid brass or stainless steel faceplates either flat or with a grille are available. The lens is clear, high temperature tempered soda-lime glass for high-impact resistance, furnished with a silicone molded gasket for a watertight seal. Also, an adjustable lamp bracket provides  $\pm 25^\circ$  of tilt for precise beam control and locks into place preventing any disruption of lamp position during maintenance.\*

<b>Power Input</b>	12V, 24V AC/DC
<b>Lamp details</b>	MR16
<b>Power Usage</b>	4W-7W
<b>Beam Angles</b>	Medium, Wide
<b>Colour Temperature</b>	3000k
<b>Lumen</b>	Varies with lamp type
<b>CRI</b>	80+
<b>Dimming System</b>	DALI Interface
<b>IP</b>	
<b>Finish</b>	Composite Black, 316 Stainless Steel, Solid Brass, Other colours available
<b>Mounting</b>	Inground. Ensure adequate drainage around light.
<b>Dimensions</b>	Type 1: 124Ø x 119H, Type 2: 124Ø x 127H

#### Product Notes

\* Installation in Lawn or Gravel only

#### General Notes

Please contact Light on Landscape to confirm the availability and current specifications of this luminaire.

#### Installation

Light on Landscape strongly recommend that all luminaires be correctly installed and maintained. Failure to do so will result in the voiding of the manufacturer's warranty and the reduced efficiency, performance and life of the fixture. To eliminate voltage drop, we advise that the recommended UV stabilized cable and run lengths are used, along with soldered joins, heat shrink connectors and quality lamps.
