

### LOL-WET-0198

**Model No** LOL-WET-0198

**Application** Wet Areas

**Name** Pond Light

#### Description

The LOL-WET-0198 is fully submersible and is adjustable on two planes. The luminaire is ideal for illuminating sculptures or other water features. A version with a weighted base is available, allowing the luminaire to be placed in the pond without drilling fixing holes to mount it. It is supplied with a 3 metre submersible cable. This luminaire is machined from a choice of 10mm solid aluminium with a UV stable powder coated finish, solid copper or 316 stainless steel with a clear, tempered, flush glass lens and high temperature silicon gaskets.

**Power Input** 12V, 24V

**Lamp details** MR16

**Power Usage** 4W-6W

**Beam Angles** 10, 38, 60

**Colour Temperature**

**Lumen**

**CRI**

**Dimming System** 0-10 Volt, DALI Interface, - Phase

**IP**

**Finish** 316 Stainless Steel, Copper, variety of Powdercoat colours

**Mounting** Screw or weighted base\* with corrosion resistant screws

**Dimensions** 64W x 142H or 167H

#### Product Notes

\* optional weighted base. \*\* Copper may not be suitable use with fish. May be mounted to a depth of 2 metres

\*\*\*Custom cable lengths available when ordering

#### General Notes

Please contact Light on Landscape to confirm the availability and current specifications of this luminaire.

#### Installation

Light on Landscape strongly recommend that all luminaires be correctly installed and maintained. Failure to do so will result in the voiding of the manufacturer's warranty and the reduced efficiency, performance and life of the fixture. To eliminate voltage drop, we advise that the recommended UV stabilized cable and run lengths are used, along with soldered joins, heat shrink connectors and quality lamps.
